INTRODUCTION

Florida is preparing for a time of unprecedented change. By 2030, we will be home to 26 million residents and one of the most diverse populations in the world. Technology and innovation are disrupting every industry and community. Our markets for goods, services, and ideas—and our competition for talent, customers, investment, and market share—are becoming global at an accelerated pace.

Florida can take advantage of these trends and become the leading U.S. state in the 21st century—a place marked by global competitiveness, prosperity, and vibrant and resilient communities. But to achieve that vision in just 12 years will require bold targets, thoughtful strategies, and a commitment to action.

Florida 2030 offers a strategic blueprint for achieving Florida’s potential. It defines goals and strategies to guide private, public, and civic partners as they work together to shape Florida’s economic future. Led by the Florida Chamber Foundation and based on three years of research and input from more than 10,000 Floridians, this initiative lays out a path for the transformation of Florida into a top 10 global economy that attracts and retains talent at all ages and provides a path to prosperity for every community in the state.

This blueprint is organized around the Six Pillars of Florida’s Future Economy. It is designed to be bold, not incremental. The focus is on achieving targets that would transform Florida by 2030—such as ensuring all 3rd graders can read at grade level or providing connectivity to all residents of Florida. This blueprint identifies the state we want to be in 2030, and then explores strategies that will help us get there.

Our entire research team would like to thank the hundreds of civic, business, and research leaders, as well as the thousands of Floridians, who care enough about Florida’s future to leave their imprint on this blueprint.

September 2018

***“Florida is changing.
Our economics, our demographics,
and our politics are all changing
and these changes are both
opportunities and challenges.”***

Mark Wilson
President & CEO,
Florida Chamber of Commerce

WHERE DO WE WANT TO GO?

2030 Targets

GOALS

Global Competitiveness

Grow Florida into a top 10 global economy

Prosperity & High Paying Jobs

Create a path to prosperity for all zip codes in Florida

Vibrant & Resilient Communities

Position Florida among the top states for attracting and retaining talent and visitors of all ages

Improving Florida's talent pipeline for a better workforce

>80% of Florida's workforce has essential **employability skills**

>60% of Floridians 25-64 have a high-value **postsecondary certificate, degree, or training experience**

95% of entering **high school students graduate within 4 years**

100% of Florida **8th graders read & perform math at or above grade level**

100% of Florida **3rd graders read at or above grade level**

100% of children are **ready for kindergarten**

Creating good jobs by diversifying Florida's economy

Top state for **gross domestic product** and **top quartile most diversified state economy**

#1 state for **overseas visitors**

Goods exports **double** and **services** exports **triple**

Top 5 state for **manufacturing jobs**

Top 3 state for **technology jobs**

#1 state for **business startups**

Top 3 state for **venture capital investments**

Top 3 state for **research and development funding** and **patents issued**

Rural county share of Florida gross domestic product **doubles**

Preparing Florida's infrastructure for smart growth and development

Diverse, attainable housing to meet future demand

Every resident has access to **public and private mobility services**

All major population and economic centers connected to regional, national, and global markets by **high-capacity corridors**

World's **most capable spaceport; top-tier airports, seaports, and surface transportation hubs** in U.S.

100% of Florida residents have access to **high-speed communications connectivity**

Diverse and reliable energy, water, and waste management resources to meet future demand

All Florida residents protected by **resiliency plans**

WHERE DO WE WANT TO GO?

2030 Targets

GOALS

Global Competitiveness

Grow Florida into a top 10 global economy

Prosperity & High Paying Jobs

Create a path to prosperity for all zip codes in Florida

Vibrant & Resilient Communities

Position Florida among the top states for attracting and retaining talent and visitors of all ages

Building the perfect climate for business

Actuarially sound **property insurance** rates based on **actual risk and competition**

#1 business tax climate in the nation

Regulatory, labor, and operating risk environments rated among **top 5** in the nation

Environmental permitting and local land use processes rated among **top quartile in the nation**

Occupational licensing laws rated among **top 5 in the nation**

Legal climate improves to **top quartile in the nation**

Making government and civics more efficient and effective

100% of **state agencies** aligned with Florida 2030 goals

100% of **regional economic development plans** aligned with Florida 2030 goals

100% of Florida residents covered by **regional visioning processes**

Increased size and impact of **nonprofit and philanthropic sectors**

Doubling the rate of Floridians who **volunteer and participate in civic and public service**, moving us from the bottom to the **top quartile**

Championing Florida's quality of life

Top 5 state for **overall well being**
Florida's brand and reputation as **best place to live, work, raise a family, visit, learn, play, relocate, and compete** remains **top in the nation**

Cut Florida **childhood poverty in half** and **100% have a pathway out**

< 10% of Florida residents live in **housing-cost burdened households**

Crime rates rank among the **lowest 10 states**

Florida **protects and enhances** the value of its **arts, culture, heritage, and sense of place**

HOW DO WE GET THERE?

Talent Supply and Education

Create an integrated talent system to provide a sustainable, skilled workforce that ensures the current and future prosperity of Florida employers, employees, and communities.

Skilled and Prepared Workforce

- Foster opportunities for targeted skill development that are responsive to the shifting needs of a global economy.
- Expand access and reduce barriers so all Floridians have an opportunity to enroll in high quality training programs.
- Provide anytime/anyplace training that allows workers to continually develop skills.
- Adopt a data-driven approach to meeting Florida's needs for a 21st century workforce that employers and educators use as part of Florida's talent supply "system."

Market-Relevant Postsecondary Education and Training

- Deepen and expand cross-sector collaboration to align higher education programs with targeted industry needs.
- Shift education programs to more digital learning and simulation combined with hands-on, real-world experience.
- Cultivate essential 21st century skills such as creativity, communications, cultural literacy, and critical thinking.
- Adopt targeted strategies to increase certifications and degrees for all populations with attention to at-risk groups, low-income populations, and older workers.

HOW DO WE GET THERE?

Talent Supply and Education

Improving Florida's Talent Pipeline for a Better Workforce

High Quality Pre-K to 12 Education

- Provide all learners with opportunities to engage in real world workforce experiences, including apprenticeships, internships, externships, and other workplace-training models.
- Streamline transitions between high school, postsecondary training and education, and workforce.
- Improve statewide career awareness and counseling for middle and high school students.
- Increase the number and percentage of students who earn market-relevant certifications valued by industry while still in high school.
- Ensure that all students can read at grade level.

Access to High Quality Early Learning

- Improve the quality, quantity, and efficacy of outreach and services to families with children from birth to age 3.
- Ensure a multi-generational perspective for addressing family and child development.
- Improve the quality and quantity of training programs for persons working in early learning settings.
- Strengthen the accountability system for all of Florida's early learning providers.

Connections to Six Pillars Framework

Pillar	Opportunity
Innovation & Economic Development	• Develop, attract, and retain talent needed to support development of a value-added, innovation economy.
Infrastructure & Growth Leadership	• Provide better connectivity (transportation and/or high-speed communications) to increase access to training, jobs, and markets from all communities.
Business Climate & Competitiveness	• Streamline occupational licensing and other regulations to make Florida more attractive to employees and employers.
Civic & Governance Systems	• Build partnerships between the private, public, and civic sectors to develop and deliver future workforce and education programs.
Quality of Life & Quality Places	• Attract and retain talent by providing quality places and choices to live, learn, work, play, and run a business.

HOW DO WE GET THERE?

Innovation & Economic Development

Be a global leader in research, business formation, commerce, and investment, with opportunities statewide.

Value-Added Innovation Economy

- Create, foster, and recruit innovative companies that provide value-added jobs.
- Regularly reexamine Florida's list of targeted industries based on existing strengths as well as emerging technologies and market trends.
- Pursue high-value niche industries that leverage existing Florida strengths and market opportunities (e.g., advanced manufacturing and agriculture, life sciences, commercial space, battery technology, data centers).
- Pursue innovative solutions for providing food, water, housing, health care, mobility, energy, and other services to a growing and diverse population.
- Strengthen Florida's military, defense, and homeland security operations and leverage the talent and innovation within them.
- Create a welcoming environment for leaders in research, technology, and innovation from other states to locate and expand in Florida.

Global Hub

- Move more goods, people, and services through Florida's international gateways.
- Make more goods, services, innovations, and ideas for export to international markets.
- Multiply the impact of international trade across Florida's economy by increasing emphasis on supply chains and trade-related services.
- Position Florida for the next wave of growth in global commerce: emerging markets; travel and tourism; digital trade; and health, education, and related services.
- Leverage Florida's competitive advantage as a platform for doing business throughout the Hemisphere to attract foreign direct investment.

Forward-Looking Research and Development

- Create superclusters of university research in key sectors such as aviation and aerospace, agriculture, logistics, advanced manufacturing, and environmental sustainability.
- Ensure innovations in Florida's universities and research institutes stay in Florida by increasing commercialization through licensing, reduced barriers, and access to capital.

HOW DO WE GET THERE?

Innovation & Economic Development

*Creating Good Jobs by
Diversifying Florida's Economy*

Flourishing Entrepreneurial Environment

- Strengthen Florida's network of entrepreneurs and investors supporting business formation and early stage growth.
- Increase emphasis on business formation, the creative economy, and the gig economy in regional and local economic development strategies.
- Enhance the availability of risk, venture, and working capital to energize the expansion of existing businesses, both small and large, and to promote the formation of next-generation enterprises.

Focused Opportunities in Rural and Inland Florida

- Advance economic development opportunities that build on the assets of rural and inland Florida.
- Support development of manufacturing and logistics clusters along inland corridors such as the I-10 and U.S. 27 corridors.
- Strengthen the effectiveness of Florida's Rural Areas of Opportunity and other targeted rural development programs and increase capacity for implementation at the regional and local levels.

Next-Generation Economic Development Models

- Calibrate Florida's statewide and regional economic development structure to strengthen statewide leadership, enhance regional collaboration, ensure effective service delivery and, above all, tie to Florida's goal of being a global top 10 economy.
- Research, develop, implement, and nurture next-generation private/public collaboration models for Florida's local, regional, and state economic development and entrepreneurial growth ventures.
- Develop, implement, and invest in dedicated economic and business growth ventures supporting Florida's small- and mid-sized enterprises.

Connections to Six Pillars Framework

<i>Pillar</i>	<i>Opportunity</i>
Talent Supply & Education	<ul style="list-style-type: none"> • Align workforce and education programs to support Florida's value-added industry opportunities, such as emphasis on digital literacy and expertise for K-12 students.
Infrastructure & Growth Leadership	<ul style="list-style-type: none"> • Continue to expand the capacity and connectivity of Florida's air, sea, surface, and digital gateways to other states and nations. • Deliver and maintain reliable and efficient communications and multimodal transportation connectivity to all regions of Florida.
Business Climate & Competitiveness	<ul style="list-style-type: none"> • Ensure tax and regulatory systems support Florida's value-added industry opportunities.
Civic & Governance Systems	<ul style="list-style-type: none"> • Facilitate economic development partnerships between the private, public, and civic sectors, particularly at the regional scale.
Quality of Life & Quality Places	<ul style="list-style-type: none"> • Sustain great spaces and places that attract talent and visitors to Florida. • Leverage Florida's arts, culture, historic, and recreational resources as economic development tools.

HOW DO WE GET THERE?

Infrastructure & Growth Leadership

Connect Florida's communities to one another and to global markets; support continued economic growth while preserving Florida's essential environmental and community assets.

Efficient and Connected Transportation Systems

- Provide high levels of passenger connectivity options within and between Florida's regions, including rural to urban connections.
- Position Florida's airports, seaports, and spaceports to accommodate growth in demand for trade and visitors.
- Link Florida's trade and visitor gateways to inland corridors to enable efficient global supply chains and delivery networks.
- Transform Florida's major transportation corridors to accommodate multiple modes of transportation and multiple types of infrastructure.
- Support growing demand for a wide range of mobility options – from walking and bicycling to transit and shared vehicles/services.
- Continue to be a leader in research and deployment of emerging transportation technologies including autonomous, connected, shared, and electric vehicles.
- Continue to develop private/public partnerships to invest in future transportation infrastructure.
- Address growing investment needs in transportation as traditional revenue sources erode.

Forward-Looking Land Use and Design Decisions

- Promote sustainable urban and rural development practices that make more efficient use of land and infrastructure and protect natural resources.
- Invest in land preservation efforts to ensure protection of essential habitat, water resources, recreational, agricultural, forestry, and other resource lands.
- Encourage communities and regions to participate in long-range visioning activities that link economic development, land use, infrastructure, community planning, and environmental stewardship decisions.

Resilient Communities and Infrastructure

- Support and incentivize communities to complete vulnerability assessments and develop resilient redesign efforts.
- Identify and implement actions to improve Adaptation Action Areas throughout Florida for coastal communities at risk.
- Encourage and incentivize communities to enter the Community Rating System (CRS) program and reduce their CRS score, making them less vulnerable and reducing flood insurance costs for property owners.
- Make science-based decisions about how to protect, increase responsiveness, and invest in regions and communities at risk from extreme weather, coastal flooding, and other dangers.

HOW DO WE GET THERE?

Infrastructure & Growth Leadership

Preparing Florida's Infrastructure for Smart Growth and Development

Efficient and Connected Communications Systems

- Ensure all Floridians and visitors have access to high-speed internet, state of the art mobile technologies, and other communications advancements.
- Ensure high-speed connectivity to key global markets.
- Introduce and develop Internet of Things, artificial intelligence, and other emerging technology within state, regional, and local infrastructure.
- Initiate private/public partnerships to maintain and enhance Florida's communications infrastructure.

Diverse and Reliable Energy Systems

- Diversify energy sources and expand energy capacity to meet future demand.
- Continue to grow and enhance the efficiency and reliability of the energy grid.
- Plan for adoption of electric vehicles, connected homes and businesses, and supporting infrastructure.
- Support and enact regulatory reform to address grid modernization and access, storage and distributed generation, and energy efficiency.

High Quality and Well Managed Water Resources

- Preserve the quality of waterbodies, fisheries, and aquifers that support tourism, agriculture and economic development.
- Improve wastewater infrastructure and minimize health and environmental/economic impacts.
- Invest in private and public water, wastewater, and stormwater infrastructure improvements.
- Incentivize water conservation, reuse, and innovative technologies to limit depletion of Florida's aquifers.
- Build new infrastructure projects and diversify water sources to meet growing demand through greater use of reclaimed water, desalination, and other strategies.

Connections to Six Pillars Framework

Pillar	Opportunity
Talent Supply & Education	<ul style="list-style-type: none"> • Ensure transportation and communications systems provide access for Florida residents to jobs and lifelong learning opportunities.
Innovation & Economic Development	<ul style="list-style-type: none"> • Support development of innovations and new business models for meeting future mobility, water, energy, and other infrastructure needs.
Business Climate & Competitiveness	<ul style="list-style-type: none"> • Ensure land use and environmental permitting processes allow essential, well-planned infrastructure projects and development initiatives to move forward in a timely manner, while protecting the human and built environment.
Civic & Governance Systems	<ul style="list-style-type: none"> • Encourage infrastructure and development partnerships between the private, public, and civic sectors.
Quality of Life & Quality Places	<ul style="list-style-type: none"> • Provide a variety of quality choices for Floridians to live, work, raise a family, learn, play, and grow a business.

HOW DO WE GET THERE?

Business Climate & Competitiveness

Ensure a competitive business climate that creates world-class opportunities for companies, entrepreneurs, and employees; a pathway to prosperity for all residents; and adequate resources and investments for the institutions and communities that serve them.

Competitive Commercial Insurance System

- Implement insurance regulations based on actuarially sound assessment of risk.
- Uphold equitable insurance treatment of traditional and start-up firms.
- Reduce property insurance rates by improving the assignment of benefits laws to reduce property scams by certain trial lawyers and contractors.
- Ensure low, reasonable taxes on reinsurance in order to maintain a competitive and accessible global marketplace and reduce harmful impacts to Florida consumers.

Competitive Tax Structure

- Improve Florida's status as one of the most pro-jobs tax climates.
- Maintain Florida's advantage of no personal income tax.
- Ensure tax revenue systems adapt to changing business models and eliminate arcane taxes that make Florida less competitive, like the Business Rent Tax.
- Review state tax structure to ensure alignment with Florida's economic goals.

Effective and Efficient Regulatory and Permitting Systems

- Continue to increase the predictability and efficiency of statewide regulations and permitting.
- Craft a permitting structure and digital regulatory taxonomy that is consistent across jurisdictions within Florida.
- Create a statewide regulatory data sharing system.
- Ensure existing regulations do not inhibit innovative and evolving business models.
- Reduce obsolete occupational licensing requirements while maintaining focus on safety and welfare.

HOW DO WE GET THERE?

Business Climate & Competitiveness

Building the Perfect Climate for Business

Strong Protection of Property Rights

- Maintain Florida’s reputation as a staunch defender of individual property rights.
- Balance property rights with the need for vital infrastructure projects such as pipelines or transportation networks.
- Ensure intellectual property is protected.
- Ensure personal privacy and data are protected from government intrusion.

Strong and Balanced Legal Climate

- Ensure courts are fair, balanced, modernized, and consider the interests of job creators in processes and proceedings.
- Fix Florida’s broken lawsuit abuse climate and restore fairness to local businesses.
- Ensure Florida’s legal climate is among the best in the nation and positions Florida to be even more competitive.

Supportive Environment for Employers

- Limit new laws and regulations that may inhibit emerging technology and business models.
- Ensure Florida does not impose new burdensome and uncompetitive workplace mandates.
- Protect Florida’s right-to-work status and monitor changes in other states to assess the impact to Florida’s business climate.
- Ensure the 1099 workforce and telecommuter workforce have clear guidelines for workplace mandates and liabilities.

Connections to Six Pillars Framework

Pillar	Opportunity
Talent Supply & Education	<ul style="list-style-type: none"> • Ensure Florida is an attractive state for entrepreneurs, highly mobile skilled workers, capital, and businesses.
Innovation & Economic Development	<ul style="list-style-type: none"> • Support development of new innovations and new business models.
Infrastructure & Growth Leadership	<ul style="list-style-type: none"> • Enable essential infrastructure projects and development plans to advance in an efficient manner, balancing economic development opportunities with protection of environmental and community resources.
Civic & Governance Systems	<ul style="list-style-type: none"> • Facilitate partnerships between the private, public, and civic sectors.
Quality of Life & Quality Places	<ul style="list-style-type: none"> • Eliminate regulatory or programmatic barriers that limit access to opportunity for Floridians.

HOW DO WE GET THERE?

Civic & Governance Systems

Align and leverage private, public, and civic partners to accomplish Florida's economic competitiveness, prosperity, and quality of life goals.

Aligned Governance

- Align public, private, and civic partners at the state, regional, and local scales around a shared economic vision for Florida, using the Six Pillars as a framework.
- Facilitate changes to public and civic partnerships that address economic development, education, infrastructure, and other long-term challenges.
- Develop long-term investment strategies for statewide and regional economic development priorities.
- Improve the efficiency and effectiveness of government agencies at all levels.
- Lead the United States in the use of technology and data to govern more effectively.

Regional Stewardship

- Strengthen regional partnerships focused on future competitiveness and prosperity for all residents.
- Facilitate regional and multi-jurisdictional planning that matches the scale at which the economy functions.
- Streamline coordination between layers of government to focus on responsiveness and strategic planning.
- Mentor and develop the next generation of leaders, with emphasis on including diverse perspectives and backgrounds.

HOW DO WE GET THERE?

Civic & Governance Systems

*Making Government and Civics
More Efficient and Effective*

Philanthropy

- Create executive level coordinating processes to align public, private, and nonprofit funders around a cohesive state strategy.
- Enlist new donors to expand the resources and networks available to nonprofit funders.
- Retain more of Florida's philanthropic wealth in the state and direct it toward statewide needs and priorities.
- Launch coordinated series of pilot programs to advance novel private, public, and civic solutions.
- Identify areas for program consolidation and efficiency improvement.
- Create a state level advisory board to advise the Governor and Cabinet on ways to protect Florida nonprofits and maximize the impact of the voluntary and philanthropic sectors.

Civic Engagement

- Increase the number of residents who volunteer their time and expertise in public, community, and civil service.
- Ensure Floridians are educated about the challenges facing Florida's future and how to be engaged in advancing productive long-range solutions.

Connections to Six Pillars Framework

Pillar

Opportunity

Talent Supply & Education

- Develop new models for delivery of education and lifelong learning to all Floridians.

Innovation & Economic Development

- Promote innovative approaches to governance and civic engagement.

Infrastructure & Growth Leadership

- Coordinate economic development, land use, environmental stewardship, and infrastructure decisions at a regional scale.

Business Climate & Competitiveness

- Ensure an efficient and predictable regulatory and tax structure for Florida's residents.

Quality of Life & Quality Places

- Explore new models for delivering health care and other services.
- Build partnerships to combat generational poverty and create a path to prosperity for all zip codes in Florida.

HOW DO WE GET THERE?

Quality of Life & Quality Places

Create and sustain quality places for people to live, work, raise a family, learn, play, and grow a business.

Wellness and Health for All Residents

- Provide convenient, accessible, and affordable healthcare and wellness options for all residents, with continuing focus on cost shifts, quality outcomes, and care.
- Create targeted strategies to address areas with shortages of health professionals, including expanding medical education and provider practices and implementing innovations such as telemedicine and robotics.
- Demonstrate meaningful improvements in maternal and child health.
- Help more Floridians achieve healthy weight by improving access to fresh food, nutrition habits, education, and access to and participation in physical activities.
- Develop targeted strategies for improving mental health, reducing substance abuse with emphasis on opioid use disorders, and preventing suicide and violent crimes.
- Increase cross-sector collaboration for the prevention, early detection, treatment, and management of chronic diseases and conditions.

Sense of Safety and Security

- Continue and enhance actions proven to help reduce the crime and recidivism rates.
- Help create a safer Florida by expanding data-driven approaches to identifying and responding to potential safety and security risks.
- Strengthen cross-sector collaboration to detect, mitigate, prepare for, and respond to emergencies and security risks.

HOW DO WE GET THERE?

Quality of Life & Quality Places

Championing Florida's
Quality of Life & Quality Places

Path to Economic Prosperity for all Zip Codes

- Continue cross-sector partnerships committed to breaking the cycle of generational poverty.
- Strengthen cross-sector collaboration to ensure efficient supply of attainable housing for varying populations—especially families, young professionals, retirees, and essential workers—and to reduce homelessness.
- Enhance coordination of land use, transportation, and economic development decisions to improve access to jobs and to reduce the combined cost of transportation and housing.
- Improve access to education, health care, transportation, and other services for traditionally underserved residents.

Florida's Brand and Culture

- Strengthen Florida's brand as a place to start a career, raise a family, and grow a business, in addition to being a great place to visit and retire.
- Continue to support growth in Florida's visitor industry, including maintaining the integrity of diverse visitor experiences and assets statewide.
- Continue to protect and strengthen Florida's position as a place for diversity, inclusion, and the ability for all populations and ages to prosper.
- Preserve, enhance, and grow the value of Florida's natural, artistic, cultural, and historically significant resources, leveraging them as world-class differentiators.

Connections to Six Pillars Framework

Pillar	Opportunity
Talent Supply & Education	<ul style="list-style-type: none"> • Promote quality places that attract and retain talented workers.
Innovation & Economic Development	<ul style="list-style-type: none"> • Apply innovation and technology to help provide and enhance housing, transportation, energy, water resources, health care, food security, and other services and needs important or essential to a growing and diverse population.
Infrastructure & Growth Leadership	<ul style="list-style-type: none"> • Strengthen regional and community visioning and coordination of economic development, land use, environmental stewardship, and community planning, readiness, and resiliency decisions.
Business Climate & Competitiveness	<ul style="list-style-type: none"> • Ensure accessible and affordable healthcare by focusing on wellness; quality care and outcomes; controlling cost shifts; addressing provider shortages; supporting innovations in health and wellness practices; and reducing fraud, waste, and abuse.
Civic & Governance Systems	<ul style="list-style-type: none"> • Strengthen partnerships between the private, public, and civic sectors.

NEXT STEPS

Help us secure Florida's future at www.Florida2030.org

The **Florida 2030** blueprint is the culmination of three years of research, collaboration, and strategic planning. But it also is the beginning of 12 years of action to prepare Florida for the year 2030. This implementation begins now and it requires your engagement.

The focus of implementation will be on achieving the goals of global competitiveness, prosperity, and vibrant and resilient communities, including the specific targets outlined in the **Florida 2030** reports. This vision for 2030 must remain our focus during the multiple business and electoral cycles we will experience over the next 12 years.

The strategies outlined in the report are a starting point for collaborative action by state, regional, and local partners in the private, public, and civic sectors. We fully recognize that some of these strategies can be implemented immediately; others may need additional refinement. As opportunities, risks, and uncertainties arise during the next 12 years, the right combination of strategies is likely to change. What's most important is not that we implement this plan as written today, but rather that we continue to collaborate at the speed of opportunity and continually refine and enhance our strategies so we can remain focused on the end goal.

To initiate **Florida 2030** implementation, the Florida Chamber Foundation remains committed to the following key actions:

- Continuing to convene committed partners through pillar-specific caucuses and working groups to review evolving trends and challenges and identify opportunities for action.
- Convening rollout events around Florida to share the findings and recommendations of **Florida 2030** and assist regional and local partners in identifying which strategies are most important in their regions and communities.
- Continuing to coordinate with the Florida Department of Economic Opportunity (DEO) so that the **Florida 2030** blueprint informs the implementation of the Florida Strategic Plan for Economic Development and the plans of other state agencies and commissions.
- Coordinating with local and regional chambers, economic development and planning organizations, statewide associations, and others committed to securing Florida's future.
- Tracking progress toward the Florida 2030 goal and targets through **TheFloridaScorecard.org**.

The year 2030 is approaching quickly. Today's 1st graders will graduate from high school in 2030. These students should enjoy a state with a **top 10 global economy**, a path to **prosperity for every zip code** in Florida, and a range of **great places to live, work, raise a family, learn, play, and grow a business**.

Help secure Florida's future at
Florida2030.org

Track Florida's progress at
TheFloridaScorecard.org

A NOTE OF THANKS

The Florida Chamber Foundation wishes to thank everyone who shared their expertise, ideas, and resources to make the launch of **Florida 2030** possible.

This executive summary highlights the targets and strategies identified through the three-year research process, but it does not capture all our work. You can go to www.Florida2030.org for more information on background research, town hall results, indicators, and other supporting information—and keep visiting this page for progress on the implementation. If you have an idea, please share it.

While it probably goes without saying, a few things are still worth noting.

First, the names of the individuals and companies listed on the following pages are not intended to imply endorsement of every element of this blueprint. Thank you to the people and partners listed here, who have provided varying levels of support, guidance, needed criticism, and leadership during the development of **Florida 2030**. We list many of them here to acknowledge their contributions and to thank them for their efforts to secure Florida's future.

Second, time has taught us that we will have missed some names. Please accept our apologies. With more than 10,000 Floridians engaged in this effort, we hope you understand it's not hard to do.

Finally, we did not always agree on every single target and recommendation—but we think that's a sign of the complexity of the task ahead and the diversity of our very unique state. We will continue to work with current and future Floridians to move this blueprint into results.

One thing is certain, we can all agree on what's most important: Florida is—and should remain—one of the best places in the world to live, work, raise a family, learn, play, and grow a business.
